

## Cherokee 2024 Spring Trap League

League begins on Monday April 1, 2024 and ends Monday May 20, 2024

First squad out at 5:00 PM

### Schedule:

The league will run for 8 weeks beginning April 1st with the last league shoot on May 20th. Make up dates are April 20th and May 18th concurrently with the monthly trophy shoot, you must declare your make up targets prior to shooting (*trophy shoot targets will be normal trophy shoot price*).

### League Format:

Each week we will shoot 50 targets from the 16 yard line.

Class winners will be determined using the twelve target step down method.

How this works:

The highest score is the Champion.

The next highest score is the AA class winner.

We then subtract 12 targets from the AA winner's score and that is the A class winner.

We then continue to subtract 12 targets to decide the B, C and D class winners.

If there are ties, the reverse long run will decide the winner.

***Winners will be based on the shooter's 6 best scores and calculated using the above formula.***

Example:

The high score is a 300 and the next highest score is a 292.

The 300 is the Champion, the 292 is the AA Class winner.

That means that the winner of A will be a 280, B a 268, C a 256 and D a 244.

*However, if there is no 280 then the closest score to 280 would win A but we would return to 268 for the B winner.*

### Prizes:

We will divide \$15 of the entry fee for Champ (25%), and the AA, A, B, C, & D classes (15%)

*Example: 20 shooters = Champ \$75 and the class winners \$45.*

We will have supper, a fun shoot and Awards at the conclusion of the League.

### Cost:

\$20.00 one time league fee plus \$8.00 weekly for each 50 birds

Practice rounds are available at \$4.00.

To sign up just show up any Monday or at the monthly trophy shoot.
